

# PETITION IN SUPPORT OF SB 1090

## Protect Altadena's recovery from the Eaton Fire

**To:** Assembly Committee on Housing & Community Development & Assembly Committee on Local Government · **Re:** SB 1090 (Sen. Pérez) — **SUPPORT**. Hearing: July 1, 2026.

We, the undersigned — Eaton Fire survivors, Altadena residents, property owners, local businesses, and neighbors — write in strong support of **SB 1090** and urge an **AYE** vote. Please pass it as currently written, with no amendments and no delay.

After the January 2025 Eaton Fire, out-of-town developers began using SB 1123 to carve burned Altadena lots into as many as ten units by right — with no hearing — before displaced families can even return. SB 1090 places a narrow, time-limited pause on that by-right lot-splitting in the declared disaster area. It is look-forward protection: it repeals no housing law and removes no home that gets built. It is also sound policy:

- **Parity, nothing more.** The Palisades already received this exact protection by executive order after the same firestorm (EO N-32-25); Altadena — which lost even more, nearly 9,000 homes, businesses, and structures — asks only for the same.
- **Disaster capitalism is not a fair housing solution.** A survivor may rebuild only about 10% larger, while a developer next door gets ten times the units, by right. The Legislature should not let the market profit off a community that just lost everything.
- **Recovery, not speculation.** Many of these lots still lack the rebuilt roads, sewer, water, and grid to carry added density — and survivors, not out-of-town developers, should shape how Altadena comes back.
- **It protects the SHRA's purpose.** The Starter Home Revitalization Act was written for scattered urban infill on abandoned lots, not fire-cleared ones. SB 1090 safeguards that intent; it does not repeal it.

We urge you to vote **AYE** on SB 1090 and pass it as currently written. Thank you for protecting fire survivors and the integrity of the SHRA.

### We, the undersigned, support SB 1090:
